

Happy
Mother's
Day

Moms have super powers,
With eyes both front and back.
They know the answers to all questions,
They know all about plaque.

Moms have super powers,
They juggle play and school.
And they're never too busy,
To take us to the pool.

Moms have super powers,
They can cook, sew, and repair.
And no matter how hot they become,
They always have perfect hair.

My mom has super powers,
I hope that when I'm grown,
I can be just like her
And her powers I can own.
